

Wardrobe panels, shown below, conceal coats simply and effectively.

Laptop/box/file pedestals, shown in lower right, offer convenient storage and easy access to laptops and docking stations.

Generously sized wire pass-throughs, shown at top left, manage cables for a clutter-free aesthetic.

The full front on box/box/file pedestals, seen above, creates a clean design.

Vertical sliding doors, shown closed in photo at left, provide quick, easy concealment of work-in-process.

Wooden work tools, seen at right, slide across on tracks, allowing easy access to files. The magnet-friendly back panel offers open space to display personal photos.

Aluminum work tools, shown in unit below, provide an aesthetic contrast to the wooden back panel.

An optional PowerPUP work tool, shown below, provides quick access to power and data connections.
