Coolness expresses a warm welcome.

Freestanding or ganging, Swift components bring neat flexibility to realize the ideal accommodations. Start with one-, two- and three-seat benches and lounges with or without arms. Play it straight, or "zig and zag" with 30°, 45° and 90° pieces. Choose a contrasting fabric color to add interest and depth. Then trim it all with wood and metal accents—polished aluminum, powder-coated platinum metallic or cinder. Swift tables enhance your creative latitude with corner models that mirror the angular flexibility of your seating choices. Complete your setting with end tables (12.5" or 25" wide) and coffee and console tables that gleam with glass inlays. All are available in your favorite hardwood veneers and a smart selection of durable woodgrain laminates.
