progeny

Smartly appoint an open plan environment or easily fill the private office with exactly the amenities you need. Progeny's versatile modular component selection and customizable configurations make it the obvious choice for all your space planning challenges.

management and executive

Specify configurations that accommodate the most industrious corporate work schedule. Choose task oriented overhead and lateral file storage designed to support the varying needs of your organization. Complement each executive suite with the addition of a wardrobe and vertical storage towers for personal storage solutions.

modularity

Freestanding modular design means a tailored fit. Let your office evolve with components that can transition to accommodate increasing storage needs and ongoing office growth. Progeny allows your office space to transcend from open plan to private office.

executive and management workstations

The warmth of wood in rich cherry finishes; comfortable, flexible and tailored to your needs.

Appoint your office environment with distinctive, elegant architectural elements. Freestanding casegoods and desktop towers can be specified with bowed glass door fronts. Floating desk and credenza tops available with arching worksurfaces coordinate wardrobe storage detailing with floating top.

Configure file management choices for easy organization and overhead storage in full and semi-private heights. Modesty panels that feature full width openings are available in perforated 18 gauge steel, cherry wood veneer or a chemcast panel.

team workstations

Configure a workstation, add different options and create personal work spaces to fit any job description in a collaborative open plan environment.

Computer corners provide complete privacy within an open atmosphere. Extension tops to allow for expanded work surfaces.

Increase storage by adding freestanding vertical towers or desktop towers and corner hutches. Keep files in view with overhead storage that incorporates dividers that can be configured horizontally or vertically and utilize underside paper storage units. Combine these choices with open and hinged doors hutches in various heights to keep everything within reach.

A full range of conference room products are available to complete the work environment. Specify from a large selection of conference tables, storage cabinets, hutches, bookcases, wall units, lecterns, occasional tables and visual boards. Find solutions that fit your need, your space, and your sense of style.

P-95 clear

Chemcast P-95 available for use on modesties and overhead door panels.

progeny

Edge

The reverse waterfall edge is a handsome finish detail exclusive to the Progeny line of casegoods.

Pull

Doors and drawers of this contemporary offering are accentuated with a circular satin nickel pull.

Modesty

Available in three styles; a perforated 18 gauge steel modesty is available in graphite or silver powder coat, a solid wood veneer matched to your choice of cherry finish or a chemcast panel.

Finishes

Veneers are carefully slip-matched and balanced. Inwood's catalyzed varnish satin finish is a multi-step process which leaves a natural open grain look to the available natural, honey or burgundy cherry finish.

Chemcast™ Panels

Specify overhead doors and modesty panels in our P-95 chemcast for a unique contemporary look. This lightweight acrylic material has many times the breakage resistance of glass and withstands exposure for many years without losing its surface properties.

Contact your Inwood Office Environments representative for specifics and lead times of optional chemcast panels.
