EXPANDABLE TABLES PROGRAM

BELMONT

7130 (Executive Cherry Finish)

7131 (Sunset Cherry Finish)

7132 (Brown Cherry Finish)

KESWICK

7990 (English Cherry Finish)

DMI Office's Expandable Conference Table program offers exceptionally handsome veneer conference tables with the flexibility of size to suit your conference needs. The tables are available in the Contemporary/Transitional 7130/7131/7132 Belmont and Traditional 7990 Keswick finishes. Not only are the tables designed for flexibility of size but they are also engineered to neatly accommodate cable management. The program consists of eight basic components that allow you to create tables starting at 8' or 10' and expanding in 4' increments.

FEATURES:

- Four finishes: 7130 Executive Cherry, 7131 Sunset Cherry, 7132 Brown Cherry and 7990 English Cherry.
 - Each top has a pre-installed grommet.
 - Tables constructed of veneer, wood solids and wood product. Tops feature cherry veneers bordered by walnut veneer banding protected with a UV top coat resisting scratches, marring and abrasion.
 - Included mending plates ensure proper top alignment and secure assembly (1).
 - Each base has six adjustable levelers that also assist in correct alignment and assembly.
 - Designed with rails providing stability, adding style and helping to conceal the functional wire management troughs (2).
 - Wire management troughs or trays provide aesthetically pleasing means to safely manage cables (3).
 - Base component designed with cable opening at the top (4) and vertical channel within the base to guide cables out through bottom of the base.
 - The cable opening in the top components are also positioned and sized to facilitate the installation of optional data ports/power centers (4).
- (See page 15 for data ports/power centers)*
