GLOBAL VION TASK CHAIR

Mesh Back

Dimensions: W25.5 x D24 x H41 IN.

Ergonomic features:

Tension Adjustment
Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

Chair Tilt Lock
Lock the tilt movement in position(s) to accommodate your working posture. Allows you to lock your chair in a comfortable and supportive position (can be either single position or infinite style).

Seat Height
Raise or lower to allow your feet to rest flat on the floor. Avoids pressure under your thighs, easing blood flow.

Seat Depth
Change the depth of the seat to accommodate the length of your thighs. Keeps your back in contact with the backrest while avoiding pressure behind your knees.

Back Angle
Adjust to change the angle of your torso in relation to your thighs. Helps reduce disc pressure and relaxes your back muscles.

Arm Height
Raise or lower to support your forearms. Reduces muscular effort in neck and shoulders, minimizing risk of pain.

Synchro-Tilt Movement
Backrest reclines at a faster rate than the seat, increasing the angle between your torso and thighs. Enhances comfort and encourages dynamic body movement.

Waterfall Seat Edge
Reduces pressure at the back of the knee, contributing to good blood flow.

Properly Contoured Cushions
Support the body effectively, allowing you to sit longer without discomfort.

Width Adjustable Arms
Allows outward movement of armrests to match shoulder breadth. Ensures armrests properly support forearms, reducing muscular effort in neck and shoulders.

Soft Descent Pneumatic Lift
Gently and gradually lowering the seat helps you easily select proper seat height without causing a jerking motion.
